

One of the roommates begrudgingly cleans the shared apartment weekly without the other roommates helping ever.

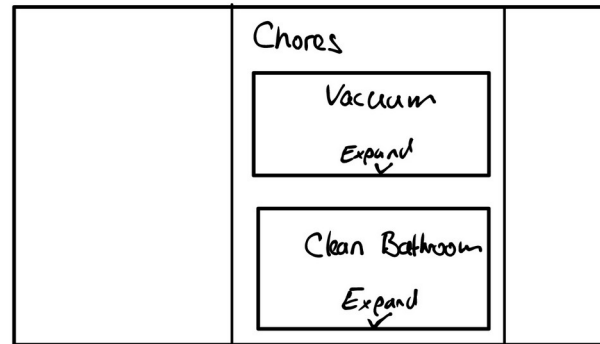

They confront their roommate about the situation and offer them to create a chore plan with the help of our app.

In the app they can create new chores....

And add a clear chore description, standards of cleaning and a regularity of each chore.

Now they can see in a list all chores that they have planned out and when expanding them see details about when they are due.

Chore plan		
Chore	Time	Who
Vacuum	Today	Tim
Clean Bathroom	This Friday	Claude

With all the gathered information our app creates a dynamic and fair chore plan. It further reminds all flatmates when their duty is due.
